

Keyless Digital Electronic Intelligent Password Door Locks Cabinet Door Code Lock

CB-94

Specifications

Front plate	84.8 X 56mm	Transient current	<=250mA
Backplate	118 X 46mm	Work current for operating keypad	<=20mA
Use time	More than 100 thousand times	Ant-static current	Anti-air discharge 15KV, contact discharge 8KV
Power supply	4 pcs AAA alkaline batteries	Working temperature	-25 C ~65 C
Static current	When indicating LED tum off, static current <=5uA	Working humidity	50%-95%RH
