

Tuya Multi-mode Gateway Support Wifi,zigbee 3.0,Bluetooth And Ble Mesh

Tuya Multi-Mode

Induction

Support Three Major Communication Protocols

Smart Multimode Gateway supports Zigbee/ Bluetooth/ Bluetooth Mesh three communication protocol devices. One gateway can realize the interconnection and intercommunication of the above different protocol devices, making it easier for you to build a smart home.

Control All the Device Remotely

No need to separately control your Bluetooth and ZigBee devices in two different interfaces, simply control them within one multi-mode gateway hub with reliable local linkage and group control services supported.

Home Automation

Associate With Other Smart Devices in App for Local Scenario Linkage and Home Automation. Adding sub-devices without network access and multiple sub- -devices accessing the net-work at the same time. Ensure stable control of 128 devices.

Specifications

Product Name	Tuya Multi-Mode
Power Input	DC5V/1A
Working Temperature	-10°C~55°C
Working Humidity	10%-90% (No condensation)
Wireless Technology	Zigbee+BLE+Sigmesh

Dimension (mm)
